

## Project Design Phase-II Technology Stack (Architecture & Stack)

Date	27 October 2022
Team ID	PNT2022TMID36837
Project Name	Skills and Job Recommender Application
Maximum Marks	4 Marks

### Technical Architecture:

The Deliverable shall include the architectural diagram as below and the information as per the table1 & table2

**Table-1 : Components & Technologies:**

S.No	Component	Description	Technology
1.	User Interface	The user can interact with our application with the help of web page, etc.	HTML, CSS, Java
2.	Application Logic-1	The User can login with application, by previously he should register in our web app.	Java
3.	Application Logic-2	They can also register with the help of web page	IBM Watson Assistant
4.	Cloud Database	The user data will be stored and retrieved with the help of this database.	IBM DB2, IBM Cloud etc.
5.	File Storage	The user documents like photos, resumes and much more will be stored in cloud bucket, etc.,	IBM Block Storage or Other Storage Service or Local Filesystem
6.	External API	With the help of API, the user can search the job based on their Skillset.	IBM API, etc.
7.	Infrastructure (Server / Cloud)	Application Deployment on Local System / Cloud	Local, Cloud Foundry, Kubernetes, etc.

**Table-2: Application Characteristics:**

S.No	Characteristics	Description
1.	Is it Scalable?	It follows highly scalable technologies that allows application to handle increase in large user data's, workload and perform any operation without any problem in login and sign
2.	Is it Modifiable?	It is highly Modifiable and Maintenance requires low cost, compared to other application.
3.	Is the System Robust?	It does not disturb the performance of the computer by not affecting the operating system. It works in the hardware systems.
