Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	03 October 2022
Team ID	PNT2022TMID36837
Project Name	Skills and Job Recommender application
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail Registration through LinkedIN
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3	Adminstrative Function	It is associated with the routine routine function of the adminstration
FR-4	Capturing	Taking one's possession or controliing by force
FR-5	Specific Requirements	The requirements might be database requirements system attributes in functional requirements
FR-6	Overall Description	The description documents consists of product vision,business rules,and assumptions

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	**Usability**	The source is isolated with babok list in non functional requriments in an isolated manner /process
NFR-2	**Security**	Assuring all data inside the system or its part will be protected against malware attacks or unauthorized access
NFR-3	**Reliability**	It is the proability and percentage of the software performing without failure for specific number of uses amount of time
NFR-4	**Performance**	It defiines the system attributes such as security, reliability,performanes,maintainability, scalability,and usability
NFR-5	**Availability**	It describes how likely the system is accessible to user at given point in time
NFR-6	**Scalability**	It is the ability of the application to handle anincrease in work load withoout performance degradion or its ability to quickly enlarge
